NUMBER BR17 Camp Fire

Fire	Pupils / Staff Burns / Injury / Death	<p>Prior to arrival set up a fire circle with the fire bowl in the centre. Straight branches to mark off kneeling area. Seating is away from smoke and flames, fire bucket and first aid kit (incl burns kit) positioned close by.</p> <p>If raining erect tarp over fire circle high enough not to get hot but provide shelter from rain if required. On arrival of group tutor uses route in. Explain route in/out. Seat the group around the fire bowl in a controlled manner and discuss safety implications of working near fires and what fires need to light and remain lit (air, fuel and source of ignition).</p> <p>Explain use of gauntlets, no standing over fire, kneeling on one knee while adding fuel or cooking. Show location of first aid kit and filled fire bucket.</p> <p>Tutor to demonstrate use of fire steels to create spark and cotton pads to initiate fire. Group to practice using steels to light pad.</p> <p>Once satisfied with procedures then build fire in the metal fire bowl. Explain use of fire bowl as a container for safely lighting of fire, where fire, embers and ash can be controlled.</p> <p>Demonstrate cooking over the fire. Kneeling on one knee. No standing over the fire and use of gloves at all times.</p> <p>When using Kelly kettle fully demonstrate how to boil water and emphasise rubber bung is removed during boiling. Set kettle up on flat site. Light fire in base of kettle and once burning place kettle body over fire and introduce more twigs in throat of kettle. Never leave kettle unattended and always watch for water</p>	<p>Teacher awareness of risks essential.</p> <p>Safety brief prior to activity.</p>	Yes	Low

		boiling. Pour carefully wearing gloves and pulling on kettle chain.			
Extinguishing the fire	Pupils / Staff Injury	Tutors must ensure that group are a safe distance away before attempting to put out the fire. The fire should be allowed to go out or if time does not allow use contents of fire bucket to drench the fire bowl or kettle base ensuring all embers are submerged, have stopped glowing and are extinguished. Check fire bowl is cool before picking up and dispose of cold, wet ash.		Yes	Low
Fire getting out of control	Pupils / Staff Injury / Death	Group to be moved away from fire. A bucket of water should always be at the activity area to attempt to put the fire out when needed. Inform fire brigade . Stay close by the fire to direct arrival of fire appliance.		Yes	Low

Plus have regard for nature of the group, any pre-existing medical conditions, and continually risk assess throughout activity.
